- New sorcerer skill: fire inspiration

Fire inspiration:

Usage: automatic

Fire inspiration is an ability that is automatically applied to the user's fireball power. Once fire inspiration has been practiced, it is used in conjunction with each fireball cast / invoked by the user. Skill improvement for fire inspiration is also automatically handled by fireball.

The greater the user's understanding of fire inspiration, the more damage will be done by each fireball due to an increased fireball +damage and +hit. The additional damage and accuracy of fireball is automatically attempted each time fireball is used.

It has been rumored that this ability improves in power for users who exceed 100% ability mastery. Furthermore, it is rumored that the true power of fire inspiration lies in its mastery beyond 100%.
