- The first wave of inscriptions and ciphers is now available to all inhabitants of Nodeka! Any player may purchase these upgrades to customize their character's abilities.
- Krijjkar, who resides above Ruushi near Vai-shan, will sell inscriptions to players in exchange for faction points earned in Ruushi invasions.
- Before you purchase anything, make sure that you read 'help inscriptions' and all related helpfiles thoroughly.
- Krijjkar will develop more inscriptions soon (as well as other rewards to purchase with faction) - keep this in mind when deciding whether or not you want to invest in an inscription right away.
- Druid changes:
 - Rite of virility has been redesigned, and no longer provides unreasonable amounts of +hit/+dam.
 - Wild calling's prevention is less harsh outside of havens.
- Fallad changes:
 - Holy hammer deals slightly less damage when improved via the relevant canon. (Base damage is unaffected.)
 - Guided canon of mending's healing has been improved, and its prevention has been reduced.
