

Update 12/29/2009:

Written by Serenity

Tuesday, 29 December 2009 23:54 -

- Three new commands: 'empower', 'inscription', and 'read'. More information and helpfiles will be revealed in days to come. Each command is fully functional, although the secrets of 'inscription' will remain obscured until the first set of inscribed scrolls appear in the Nodekian realm.
- Logging out will no longer render affects/preventions immune to "fading" if they were originally fade-able. (This fix is not retroactive - it will only apply to affects/preventions which are newly created from this point on.)
